MEMORANDUM FOR: [REDACTED]

Psychological Strategy Board

SUBJECT : PSE D-22

The following comments are offered in the way of corrigenda:

1. It is felt that paragraph 3.a.(2) is inconsistent with the indoctrination concept outlined in sub-paragraph "(a)" on page 6. It is also felt to be undesirable, and CIA would like to have it removed.

2. The following items concern Annex A:

a. On page 2, third line from the bottom, change "only" to "primarily."

b. On page 4, line 10, delete "with a mixture of cynicism and pathological unreality" so that the sentence starts with the word, "They."

c. On page 7, third line, change to read: "ialism which has tended to increase French intransigence on North Africa, and,."

d. On page 8, last line of the first paragraph, change the portion in quotations to include, "Western imperialistic military base."

e. On page 10, line 11, add following the word, "aware," the words, "than the Arabs."
